### INTRODUCCIÓN

Para este análisis, se usó el plan de estudios del 2016 de la Universidad Nacional Autónoma de México (UNAM) y el plan de estudios del 2018 de la Universidad de Carolina del Sur (UCS).

Estos planes son los más recientes y se obtuvieron de las páginas de internet oficiales de las respectivas universidades.

#### **DESARROLLO**

This course plan is a recommended sequence for this major. Courses designated as critical (!) may have

#### CONCLUSIONES

Se analizó el plan de estudios de dos universidades para determinar sus similitudes y sus diferencias. Se observó la tira de materias en cada semestre, haciendo énfasis en si son ciencias básicas, materias específicas de esta ingeniería, cantidad de créditos por cubrir y el tiempo de duración para acreditarlo.

Se concluye que cada universidad cuida más ciertos aspectos, como el tiempo, el grado de enfoque y la forma de acreditación.
